

REMARKS

Applicants thank the Examiner for the thorough consideration given the present application. Claims 1-9 are currently being prosecuted. The Examiner is respectfully requested to reconsider his rejections in view of the amendments and remarks as set forth below.

Objection to the Specification

The Examiner objected to the specification as failing to provide an enabling disclosure. The Examiner questioned how the two bucking screws limit the range of motion of the lamp seat. By way of the present amendment, Applicants have added two new drawings and a description of the workings of the bucking screws to make this point more clear. Applicants submit that this objection is now overcome.

Claim Objections

The Examiner objected to claims 3, 6 and 7 for informalities. In regard to claims 3 and 6, Applicants have changed "the" to "a," as suggested by the Examiner. In claim 7, the dependency of the claim has been changed to depend on claim 5. Accordingly, these objections are believed to be overcome.

Rejection under 35 USC 112

Claims 1-9 stand rejected under 35 USC 112, second paragraph, as being indefinite. This rejection is respectfully traversed.

The Examiner states that claim 1 lacks an essential structural cooperative relationship of elements. By way of the present amendment, Applicants have amended claim 1 to point out that the rotary shaft is coupled to the lamp seat and is also coupled to the rotary member. By specifying these couplings, Applicants submit that the cooperative relationships of the elements are now specified and that the claims are definite.

Conclusion

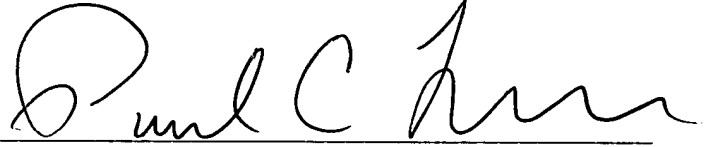

Since the Examiner indicated that the claims would be allowable if the indefiniteness were corrected, and since this has now been accomplished by the present amendment, it is believed that the claims are clearly allowable. In view of this, reconsideration of the rejections and allowance of all claims are respectfully requested.

In the event that any outstanding matters remain in this application, the Examiner is invited to contact the undersigned at (703) 205-8000 in the Washington, D.C. area.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,
